What *are* Adverse Childhood Experiences (ACEs) and why are they important? Learn about the research that identified ACEs and their long-term impacts. Discover how understanding ACEs can serve as a catalyst to help families and communities protect current and future generations of children from these potentially harmful experiences. Learn ways to prevent or lessen the impact of ACEs on the well-being and health of children both now and as adults.

Rebecca (Becky) Mather serves as the Prevention Education Specialist for the Wisconsin Child Abuse and Neglect Prevention Board. Becky is responsible for overseeing the Prevention Board's professional development activities, identifying new programmatic initiatives and for dissemination of Protective Factors efforts throughout the state.

HOPEHOUSE
of South Central Wisconsin

The day will begin with a light lunch of a turkey sub sandwich with a cup of soup and beverage followed by the program.

HO-CHUNK GAMING
WISCONSIN DELLS

Ho-Chunk Gaming is a smoke-free facility and masks are mandatory. Tables will be spaced out and a sanitizer station is in-room. • A special hotel room rate is being offered to participants who wish to stay over. • All participants will also receive \$25 in Free Play.

This training is presented by Hope House and open to all.
